Let's Do It!

# Let's do it!

- \* It all started in Estonia in 2008
- \* 50 000 people, in 5 hours

Video of movement in 2008

Country cleanup in Estonia in  
2008-  
with 50 000 volunteers

# Let's do it!

- \* The idea started to spread “One country- one day- all together”- model
- \* Today, its a global network with aim to clean up the entire planet from illegally dumped solid waste.
- \* Network of 112 countries, 11 million participants

# Whats next?

Let's  do it!

**1. Empowering communities to organize country-wide cleanups, engaging at least 5% of their population**

- The goal: 350 million participants by 2018

**2. Keep it clean!**

- To provide useful models to implement zero waste principles.

## Twining Goals

To gather information about different zero waste strategies, incineration plants, meet zero waste communities, to study their work

To meet cleanup organizers
