

# Private action in the transition to 100% renewable energy.

Consumers and NGOs: together we're unstoppable

# The question isn't "What", but "How"

Together we are unstoppable

Environmentally conscious living is important for me

So I reduced my carbon footprint

# Transition to 100% Renewable

Consumer involvement and demand.  
(Electricity is also a product! Choose!)

Companies need tools and encouragement for publicity.  
Corporate Social Responsibility.

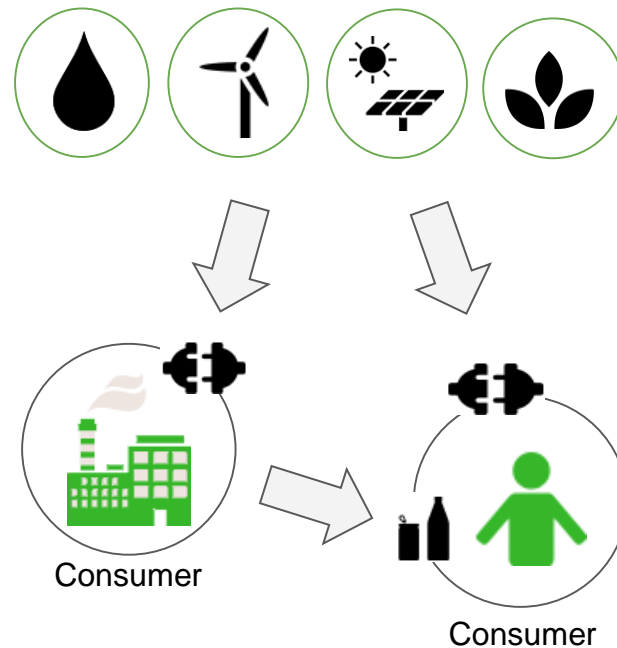

NGOs give the same message;  
Providing stimulus and amplifying our voice is necessary.

We need ACTION.
